## Prince Rupert After Business

The little Canadian city across the line certainly are not letting any grass grow under their feet. They recently grabbed a big slice of the fishing business from Ketchikan and Seattle, and are now forming plans to grab Alaska trade along other lines as the following taken from the Prince Rupert Empire shows:

"A meeting of the Board of Trade executive has been called for 2:30 p. m. tomorrow to consider the best means of going after the trade that will develop as a result of the choosing of Seward as the terminus of the Alaska Government Railway. It is believed that everybody in Prince Rupert will recognize the opportunity for this port, with her splendid rail connection to capture her share of the trade that will ensue once construction on the Alaskan railway is well under way."

## Have You Got Garden Seeds

N. J. Svindseth has received a large assortment of garden and flower seeds for free distribution. The seeds have been selected by the government for this section and if you have a garden or flower bed call at the Follensbee Barber Shop and get a package.

## Visiting Day At School

Friday, May 7th, will be observed as Visiting Day at the Public School, and the teachers state that the regular school work for that day will be finished by 2:15 p. m. after which time the parents and friends of the school children will have an opportunity to examine the work done during the term. Some very nice work will be on display and the public is cordially invited to be present.

## Gave Interesting Temperance Lecture

Mrs. Cornelia Tempelton Hatcher, the lecturer for the W. C. T. U. held a good audience at attention last Friday evening at the Rink. Mrs. Hatcher spoke at considerable length on the prohibition movement for Alaska and her lecture was illustrated with some 50 slides. Mrs. Hatcher is a very able speaker and knows her subject from the start to the finish, and tells it in a way that holds her audience. Mrs. Hatcher left on the Alki Saturday for northern points.

A good show at the Wrangell Photoshow tonight.

## Lake Bay Copper Property Looks Good

For several years past the Wrangell Mining District has seemed rather slow along with the development of other districts of Southeastern Alaska, but the coming summer gives promise to bring forth much fruit, and will see the development of several very promising properties and will tend to put the Wrangell Mining District up along with the rest of the producing districts of this section of the Territory.

Although several prospects could be named that will be worked extensively this summer, chief among them will be the A. McCullough & Company property at Lake Bay on Prince of Wales Island, about 40 miles from Wrangell. The company own four claims situated on Thomas Creek back about a mile and a half from the beach. The claims are known as the Jackson No. 1, Jackson No. 2, Lake Bay Copper No. 1 and the Lake Bay Copper No. 2. The surface ore from the claims when assayed \$13.00 in copper, 60 cents in gold and 40 cents in silver and a sample of ore taken from a depth of 35 feet in the shaft went \$13.00 in copper, \$4.00 in gold and \$1.00 in silver. The ledge is calcopirite ore and has been pronounced by men who have examined the property and know, that it is the best showing on the surface that any

property of the section has ever made.

The ore ledge crosses the creek and the top of it has been stripped for over 300 feet and holds out in fine shape. A draw of men have been working in the shaft since last December and have it down now to a fifty foot level, and the plans are to sink it down to a three hundred foot level and they will cross cut the ledge every hundred feet, to bring out all there is in the property and make the showing they expect as soon as possible.

The mining of the ore from these claims will certainly make one of the big pay rolls of the district in the years to come. The company refused an offer of a hundred thousand dollars for the property as it was before the work during the past winter was done, but in the opinion of the owners it is worth many times this amount.

Several mining engineers from the different smelters of the Sound and also from this territory have offered a free smelting for all their ore for the chance to use the ore as they state that it is by far the best fluxing ore that has ever been obtainable in Alaska.

The principal men interested in the property are, A. McCullough, N. M. Tate, M. L. Burke, L. Rinehart and D. P. Gass, all men who have spent several years in working and investing their capital in the development of the development of these claims. During the past winter the company have had from ten to twelve men working steady and at an outlay for the winter of over ten thousand dollars. The company have a saw mill on the property and have cut out timber for all the needed houses and have erected a large hoist for the handling of the ore. During the past year a large dam has been erected about 800 feet above the claims from which water is taken to furnish power for the mill and other machinery. The water is taken at the dam under a 60 foot head through a 20 inch steel pipe line to a 9 foot Pelton water wheel, which is developing about a hundred horse power and is proving plenty of power for the working of all machinery.

The property was located some ten or twelve years ago by Mr. McCullough and the men interested in it are all fast friends of his. Mr. McCullough is now in the states where he is making arrangements for the carrying on the development of the property on a much larger scale.

The schooners King and Winge and Equator have been chartered by the U. S. Coast and Geodetic survey for use during the coming summer in making wire-drag surveys of the waters of Southeastern Alaska.

## Hunters On Way Here

Gov. J. F. A. Strong today is seeking two hunting licenses for the killing of big game, one to N. H. Nabeck, of Minneapolis, Minn., and the other to H. E. Peck, of Kenmare, N. D. The letter of request states that the parties will leave Minneapolis on the 26th of this month, and that they expect to be in Wrangell on May 3rd, from which point they will begin their hunt.

N. H. Stabeck is president of the Gold-Stabeck Loan & Credit company of Minneapolis, and together with H. E. Peck will hunt the brown bear of Alaska in the mountains about Wrangell. The parties also have permits from the Department of Agriculture to gather bird specimens for scientific purposes.—Empire.

Superintendent L. Schott, of the local A. P. A. Cannery, Mrs. Schott and daughter Miss Clyda, arrived up on the Alameda last Tuesday morning, after spending the winter at their home in San Francisco. During their stay the Schotts have taken in both the California fairs which they are boosting as being the greatest exhibitions ever and they also made a trip down into Mexico, and they report having spent a delightful season in the sunny south.

## Great Saona Here Friday

Remember Friday night is the night of all nights at the Rink when "Saona" will give a demonstration in Hypnotism that is both educational and instructive, there will be a "bushel of comedy." In the afternoon there will be a demonstration in the window of the Wrangell Hotel that the public are invited to see free of charge. Saona from press reports from the cities of Juneau and Douglas has certainly made a tremendous hit in those cities, having played a return engagement in both towns. In connection with his Act which will last one hour and a half, Ira Robertson will appear in one of his Care Killing Specialties, and The Rink will show a two part feature picture that will be well worth seeing. Remember the time, the place and the date,—adv.

The first wolf skin under the new law was received by the Territorial Treasurer last Thursday from J. A. Johnson. While the new law will not be effective for a time yet, its provisions provides that it is operative from its passage, and Mr. Johnson will receive his bounty after July 1st, when the money is supplied the treasure according to the law, which requires 90 days after being signed by the Governor.

## Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point on the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the type is shifted—not the carriage.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. type-writing is free from blurs and every letter in the right place.

## Territorial Law Regarding Saw Mill Wastes, Etc.

"SEC. 1. It shall be unlawful for the proprietor or any mill in the Territory of Alaska, or any employee therein, or any other person, to cast sawdust, planer shavings, or other lumber waste made by any lumbering or manufacturing concern, or to suffer or to permit such sawdust, planer shavings, or other lumber waste to be thrown or discharged in any manner into any of the streams entering into salt water of this territory, or any bays immediately adjacent to salmon streams, or to deposit the same where high tide water will take the same into any of the waters of this territory.

"SEC. 2. Any person violating this act shall be guilty of misdemeanor, and shall be punished as such."

"Approved April 30th, 1913."

As this law was passed and is now in force it should be enforced. On Tuesday last we noticed the bay in front of the town was literally covered with sawdust from the local mill. It is time that the attention of our local mill is called to the law governing this misdemeanor. In other communities, especially in salmon states of the Pacific, this law is enforced to the letter, for it is a well known fact that sawdust is one of the worst enemies that the salmon have as it sticks in the gills of the young fry as they swim close to the surface and causes their death. We must protect the fish of our district, as it is our principal industry.

Also another reason why this waste should not be thrown into the waters of the bay is its effect upon the health of the community. The sawdust lies and rots along the beach and when the sun comes out and the tide is low it makes living along the water front almost unbearable. This should make a case for the Health Committee of the council.

Superintendent Barnes of the Lake Bay cannery was in town on business the first of the week.

Mrs. M. O. Johnson and two little children, family of the sawyer at the mill, arrived from the south on the Alki.

Mr. and Mrs. Munday and Miss Ella Berg returned on the Alki last Saturday after spending the winter below.

If Harry Gartley of the Matheson Department Store keeps on selling and demonstrating those Evinrude motors there is going to be a big rush soon for engineers licenses.

The fire boys were called out last Saturday morning when a small blaze was discovered at the jail but before the department arrived the fire was put out by the marshals crew.

Donald Sinclair believes in the early bird, for during the past week he has received two shipments of fine fresh strawberries, which he sold for only fifteen cents per box.

Capt. Strong expects to have his river boat Winifred ready to start on the river full by the last of the week. The river is reported all clear to Telegraph and there is considerable freight now in the bonded warehouse for up river points.

## **Get the habit. The Rink is the place.**

J. G. Grant, is holding open house at the Wrangell Hotel tonight.

The S. S. Dolphin of the Alaska Steamship Co., is expected to arrive here from the south Friday.

Manager Bender of the Photoshow is advertising a dance to be given after the show next Saturday night.

The ladies Basket Ball team leave tonight on the gas boat Standard for Ketchikan, where they will play the ladies team of that city. Luck with you Ladies!

The new engine for the Winifred arrived on the Spokane. The new engine is a Scripps and if you want to know anything about them ask Sam Cunningham.

There certainly is something mysterious in the movements of Leo McCormack for he has rented and moved into the bungalow of Al. Spaders and is fixing it up in great style. And he has just came back from below too.

J. J. Daly, manager of the Ketchikan saw mill, liked Wrangell so well last Saturday that he let the Alki go on and leave him here. Mr. Daly was on his way to Juneau and left again Sunday morning on the Jefferson for that place.

After the show last Saturday night at the Rink the ladies basket ball team gave a dance. A good crowd attended and everyone reports a good time. The music was furnished by Mrs. Thurston and Miss Gussie Leonard.

## **"Saona" the Famous Hypnotist at the Rink Friday night.**

The Wrangell Fire Department meets Monday night. All firemen are requested to be present.

The fire department was called out on a false alarm last night, the cause being the exhaust from the power engines throwing fire.

Mrs. Wm. Thomas returned on the Jefferson last Sunday from an extended visit through the south. During her stay away Mrs. Thomas visited both in West Virginia and Missouri having been away some seven months. Mrs. Thomas reports that they have had a hard winter all thru the south, and that she is glad to be back in Alaska, and also that she is much improved in health.

J. G. Grant and Earnest Campbell are both swearing that there is a German submarine in Wrangell harbor, or something just as bad. And the trouble all arose over Johnnies new Evinrude. John having a fine row boat believes in doing everything the easiest way so he landed on one of those swell little engines from Matheson's to do the rowing for him, and taking Earnest along as engineer they started for a ride this afternoon. Every thing went fine until they got the engine fast on the boat then they started to crank it, and then they woke up in the cold waters of Wrangell harbor. But everything is going fine now and John says it beats rowing.

## Hypnotist Here Friday

What will prove to be one of the  
biggest attractions that has ever  
been presented at the Rink will be  
"Saona" the famous Hypnotist on  
Friday, April 30th. We have  
watched the press very close in re-  
gard to this act and find them to a  
unit speak of his cleverness. Ar-  
rangements have been made with  
Mr. Grant of the Wrangell Hotel  
and Saona will give a demonstra-  
tion of his wonderful gifts in the  
afternoon when he will put a sub-  
ject to sleep in the window and  
just before the start of the show  
will awaken him in full view of the  
audience. He has a great variety  
of demonstrations that are really  
marvelous, such as passing the  
complete current from the Electric  
light plant through a subjects  
mouth, and by a motion taking  
the blood from parts of the body  
and calling it back at will. There  
will be plenty of good rich comedy  
to keep the audience in perfect  
humor. Mr. Ira Robertson will  
entertain with one of his special-  
ties and the Rink photoplays will  
make a show that is seldom seen  
here. The admission will be 50c  
adults and children 25c. Remem-  
ber the date Friday, April 30.
